COMPANY PROFILE

Manufacturing & Distillation of Solvents

Industrial solvents, supplied with consistency.
Used solvents, recovered with care.

Based in Ankleshwar, Gujarat.
Working across India.

www.jrdchemind.com

A dependable partner for industrial solvents.

02

Based in the GIDC estate at Ankleshwar, J.R.D Chem Industries supplies industrial solvents and gives used solvents a second life through controlled distillation and recovery.

WHAT WE DO

We supply dependable industrial solvents across a wide range of applications. Alongside supply, we recover spent, contaminated and mixed solvents through distillation — helping customers reduce fresh solvent consumption and waste.

Supply clean. Recover smart.

HOW WE WORK

We keep things straightforward: consistent material, proper documentation, responsive communication and practical solutions for every requirement.

**Straight answers.
Reliable material.**

OUR VISION

To be the solvent partner customers call first — because quality stays consistent and dealing stays honest.

OUR MISSION

To supply solvents customers can rely on, recover the ones they have already used, and keep both processes simple.

Clean solvent in. Used solvent back to life.

Solvents for real industries.

We supply a wide range of industrial solvents that support critical processes across multiple industries.

KEY CATEGORIES

Alcohols
